

Pre-boarding health declaration questionnaire

(The questionnaire is to be completed by all adults before embarkation)

Name of vessel:	Shipping Company:	Date & time of itinerary:	Port of disembarkation:

Contact telephone number for the next 14 days after disembarkation:

Full name as shown in the Identification Card/Passport:	Father's Name	Seat	Number
		<input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D	

Full name of all children travelling with you who are under 18 years old:

		<small>A) Economy B) Aircraft type C) Business, D) Cabin</small>	
		<input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D	
		<input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D	
		<input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D	

Within the past 14 days	YES	NO
Have you or has any person listed above, presented sudden onset of symptoms of fever or cough or difficulty in breathing?	<input type="checkbox"/>	<input type="checkbox"/>
Have you, or has any person listed above, had close contact with anyone diagnosed as having coronavirus COVID-19?	<input type="checkbox"/>	<input type="checkbox"/>
Have you, or has any person listed above, provided care for someone with COVID-19 or worked with a health care worker infected with COVID-19?	<input type="checkbox"/>	<input type="checkbox"/>
Have you, or has any person listed above, visited or stayed in close proximity to anyone with COVID-19?	<input type="checkbox"/>	<input type="checkbox"/>
Have you, or has any person listed above, worked in close proximity to or shared the same classroom environment with someone with COVID-19?	<input type="checkbox"/>	<input type="checkbox"/>
Have you, or has any person listed above, travelled with a patient with COVID-19 in any kind of conveyance?	<input type="checkbox"/>	<input type="checkbox"/>
Have you, or has any person listed above, lived in the same household as a patient with COVID-19?	<input type="checkbox"/>	<input type="checkbox"/>

Passengers shall not travel if they have symptoms of COVID-19 infection (cough, runny nose, fever, sore throat, shortness of breath and other respiratory symptoms) or have had contact with a COVID-19 patient within 14 days prior to the trip.

1. BEFORE AND DURING THE BOARDING OF THE SHIP

Passengers must comply with the following control measures during boarding:

Social Distancing

A minimum distance of 1.5 meters between passengers (and simultaneous use of a mask) should be observed. Individuals who cannot tolerate the long-term use of a mask due to respiratory diseases should keep a distance of more than 2 meters. The ship's crew will oversee the boarding process and scrutinize the respect of the foreseen distances.

- Completing the "Pre-boarding" form and submit it to the ship's Chief Purser along with their ticket, when boarding, prior to the ship's departure.

2. DURING THE TRIP

Passengers must necessarily comply with the following precautionary measures during the trip:

- We keep wearing our mask¹ both in indoor areas as well as on the deck areas of the ship. We make sure that the mouth and nose are covered, we do not touch the mask while wearing it, we dispose off the mask immediately into a trash bin after use and we wash our hands.
- We cover our coughing or sneezing with the inside of the elbow or with a paper towel which we dispose off it immediately throwing it into a trash bin.
- We wash our hands regularly and thoroughly with soap and water or an alcoholic solution and avoid contact of the hands with the face (eyes, nose, mouth).
The use of gloves does not replace hand washing.
- We keep safety distances from other passengers around us (> 1.5 meters).
- We avoid crowded spaces.
- We avoid contact with people who have symptoms of a respiratory infection.

Please see the respective flyer of the National Public Health Organization

- It is recommended that passengers arrive at the port of departure on time to facilitate the check-in process before boarding.
- In case passengers experience respiratory symptoms during the trip, they must report it immediately to the ship's crew.
- If passengers develop respiratory symptoms after the trip, they should seek medical help immediately and inform their doctor about the history of the trip.

3. DENIAL OF BOARDING

Based on the above, if the crew members who carry out the control measures during the boarding assess that:

- i. The passenger has symptoms which indicate a COVID-19 infection or
- ii. The passengers' answers on the "Pre-boarding" form before boarding indicate that there has been contact with a person with COVID-19 infection or
- iii. The passenger refuses to use a mask¹ on the ship

the passenger will be denied boarding the ship and the applicable provisions for the use of tickets at a later date or for their cancellation will apply.

In cases (i) and (ii) the trip will be denied for 14 days or if the passenger has been ill he/she will have to provide a medical certificate stating that the criteria for the termination of precautionary measures for a patient with COVID-19 are met as defined by the National Public Health Organization.

¹ *The use of a surgical mask is also acceptable, but it is recommended to use a tissue mask instead, to ensure that the surgical masks are spared for medical staff. The mask with high breathing protection valve is not accepted for use by the general public.*
